

## Pupil Premium Strategy

### Context of Academy

Whilst the percentage of PPI students at Garforth Academy is low measured against national averages, they still represent a significant group of students and as such play an important role in the overall success of the Academy. The table below identifies our students KS2 ability range on entry for our PP and Non-PP students; we have a higher percentage of PP students with low to middle ability range entering Year 7 compared to Non-PP students.

In the Financial Year 2018-19 Garforth Academy has 150 students eligible for the Pupil Premium which will generate a total income of £236,562.

For Year 7, 8 & 9 students LAP, MAP and HAP are categorised with LOW below KS2 scaled score of 100, MID as a score between 100 – 109 and HIGH with a score of 110 +

For Year 10 & 11 students, LOW categorised with a KS2 Fine Points score of below 4.0, MID with a score between 4.0 – 4.9 and HIGH with a score of 5.0+

As an Academy we are focused on closing both relative and absolute differences in student achievement. Spending commitments made are based on a detailed understanding of individual needs and aim to maximise the growing body of research and evidence on effective practice.

All pupil premium spending should lead to a quantifiable impact on student achievement and attainment, with a clear plan for impact measurement established. Detailed individual intervention plan and spend per PP student is available on request.

The Academy has put in place the following monitoring/reporting system:

Each Faculty to input PP data every half term and include the following information

- Issue – Curriculum, Behaviour, Attendance, Emotional Wellbeing, Homework, Work Ethic and No Issues.
- Subject – Department/Faculty name.
- Support Offered – Homework support, Educational Visit, Additional Tuition, Intervention Programme, Holiday Intervention, Coursework Support, Provision of resources and equipment, Small set group, TA support in class, Revision Session, Attendance support, Daily support, Weekly support, Group Programmes one to one support, Home visits, Parental meetings, Excellence Centre and Detentions.
- Hours – For each type of intervention offered for each half term.

After each data capture there is a 'subject concern list'. If a 'Progress 8' score for a student is in RED then that particular student has underperformed from the previous cycle date. Subject is identified as a concern and Departments are instructed to re-visit their intervention plan. If it is identified as GREEN, then the intervention is having an impact and the strategy continues.

These parameters for PP students are narrower than Non PP students to highlight our firm commitment to closing the difference between the outcomes of PP and Non-PP students and ensuring we diminish the difference of our PP students on all national % thresholds.

The tracker is used by all subjects and information is collected half termly for **ALL PP students**.
